

Delta Dental benefits, on the go!

The **new** Delta Dental Mobile App helps members get the most out of their dental benefits anytime, anywhere. They can use the Dentist Search or Toothbrush Timer without logging in, or enter their username and password* to securely access personal benefit information.

» Dentist Search

Members can find a dentist in their plan/network, narrow the list with criteria like ‘language spoken’ and ‘specialty’, and even find a dentist nearby using their current location. After selecting a dentist, they can save the contact information and get directions.

» Mobile ID Card

No more paper! Members can provide their dentist with the information he or she needs by accessing their ID card right on their phone.

» View Coverage & Review Claims

View plan type, benefit levels, deductibles, maximums, and more. Members can check the status of recent dental claims for themselves and their dependents. To keep this information secure, they’ll have to log in each time. No personal information is ever stored in the app.

» Toothbrush Timer

Members can be sure they brush for the recommended two minutes with this handy timer that uses a song from the phone or a pre-loaded tune to keep them going.

The Delta Dental Mobile App is available for Apple iOS or Android users. Visit the App Store (*Apple*) or Google Play (*Android*) and search for ‘Delta Dental.’ Or, scan this QR code to download the app.[^]

* To register, members should go to www.DeltaDental.com and sign up for an account that will also work in the mobile app.

[^] To scan the code, there must be a QR code reader on the smartphone.
